

INVESTIGATION OF BREAD
PRICE IS COMPLETEDCost Loaves Increases 11 Percent While
Flour Jumps 37 Percent
Since May.

WASHINGTON, Oct. 13.—The extent of increases in the price of bread during the four months from May 15 to September 15, is detailed in figures from forty-five of the country's principal industrial centers made public today by the bureau of labor statistics. Bakers, in reports to the bureau, gave as reasons the increased cost of materials and ingredients, especially flour. Changes in prices and weights have been most numerous during the last two months, which the figures cover.

Two Hundred Increase.
Of 210 brands of bread that retailed for 5 cents and weighed 15 ounces or more on May 15 only fourteen remained at the same price and weight on September 15. Some bakers are reported to have met cost advances by discounting wholesale businesses, substitution of brands, presumably cheaper, and elimination of the return of stale bread.

Bread Increases 11 Percent.
Comparative figures regarding wheat and flour prices and the average retail price of bread, show that in September the wholesale price of wheat was 34 percent greater on September 15

than on May 15, the wholesale price of flour 37 percent higher, the retail price 23 percent higher for the same period, and the average retail price of bread was 11 percent higher.

ARMY HORSES FOUND;
GUARDSMEN DISMISSED

SAN ANTONIO, Texas, Oct. 13.—Captains Wadsworth and Lacy, quartermasters of the Illinois and Massachusetts infantry, and members of the supply companies of both regiments, all of whom have been held here pending investigation of the loss of fifty-five government horses and mules will be excused from trial and allowed to return home, General Funston announced today. The investigation showed that the officers were not guilty of criminal negligence. Some of the missing animals have been recovered.

Church Not to Take
Prisoners' Letters

ROME, Oct. 13.—The Holy See will no longer be responsible for the transit of letters of prisoners of war, says the "Corriere" of Italy. This step has been taken, the newspaper adds, so as to give no ground for "the calumnious accusations of espionage that are being directed against the Vatican by certain newspapers."

"Medical Burglar" Put
Victims to Sleep While
He Took Their Diamonds

CHICAGO, Oct. 13.—Chicago police are investigating the alleged confession of Adam Prochowski, that much of his success in burglary of diamonds and jewelry, amounting to thousands of dollars, has been due to his representation of a physician. He told the police that he often chloroformed his victims while making a burglary in their homes. He said to have been graduated from the University of War-

saw Prochowski, who is called the "medical burglar," by the police was arrested Thursday with \$1000 in stolen diamonds in his possession. In his trunk at his rooming house, the police say, was found more than \$10000 in jewelry. There was also a quantity of opium drugs which he explained he had used to produce sleep for his victims while he made thorough search for jewelry.

GREEKS SAD AS THEY GIVE
SHIPS OVER TO ALLIES

None Remains on Board Though Released by King to Join Enemy Navy.

LONDON, Oct. 13.—"Tollie" was a girl stay for the Greek tars, who are infinitely acquainted with politics to understand why they must abandon their ships to a foreign power," says "Tollie's" Athens correspondent. "It was an equally depressing sight for the Greek naval officers to see their ships being towed away by allied troops."

Prepare for Resistance.
"The allies took every precaution in case of resistance being offered. Russian battleships trained their guns on the captured vessels and the battleships Kelly and Lemons, while French torpedo boats, ready for action, cruised in and fro."

"The ceremony in the early morning of handing the vessels to their new owners, which took place in the harbor, was a touching incident. The king sent a message releasing every man who wished to remain with his ship and join the allies. It is said that nobody remained."

FRISCO RECEIVERSHIP
IS NEAR TERMINATION

ST. LOUIS, Oct. 13.—The decision of the Kansas public utility commission authorizing the St. Louis and San Francisco railroad to issue \$2,400,000 in bonds and bonds was declared today by Judge H. H. H. of the receivership to be the last step preliminary to a termination of the receivership. He said it is planned to turn the Frisco property over to the reorganized company by November 1.

PROBLEMS
Of The HEART
By Mrs. Elizabeth Thompson

DEAR MRS. THOMPSON: (1) I am going to college to high school and I am troubled at and made fun of by one of my boys. Then I read about a boy who had nothing to do as far as I know. I always act as though I were paying no attention to them but I can't help feeling angry.

These boys are not good to mean people. What shall I do to make them quit this?

(2) Several times when I have been with boys they want to put their arms around me. They say it is not wrong because all the other boys do. Is it right or not?

(3) I am 17 and I have given up my boys but I have only thought of them as good friends. I have very little of 15 and he is a boy who is not really married but I have never experienced that kind of love. Do you think I will sometime or will I always be this way?

(4) Sometimes when you are lonely, lonely, lonely, you feel like you don't care for the boys. He says like you and talk about you and as the result you get the benefit of the teasing. Perhaps if they know you do not like him they will leave him for a change instead of you.

(5) All girls do not let boys put their arms around them. If you refuse to permit it you will be more than glad some day. I can assure you.

(6) Love which is constantly spilled over when a girl is young loses its force. The love which is held in reserve increases in power and when the right time comes it is felt with full force although it has not been realized before.

Dear Mrs. Thompson: (1) I am going to get a bunch of girls to go out Halloween and have a good time. There will be no boys in the crowd. Would this be all right?

(2) My boy friend got angry with me because I went to a show with another boy. Did he have any reason for this?

(3) He asked me for a ring he gave me, when we were together, and I gave it to him. But I have still another one which he gave me. He has never asked me for it. He has one of mine too. Should I return it to him with a pin of his I have or should I wait for him to ask for his things and return mine?

(4) Is looking a strange person straight in the eye without smiling called flirting? THREE CHUMS.

(1) I think it would be all right. A crowd of girls can have a lot of fun on Halloween night. They should remember not to become rowdyish though.

(2) No. It is best to go with more than one boy.

(3) Return his things to him and say that you would rather not keep them. Also ask him for your ring.

(4) It is rude to look a stranger straight in the eye for any length of time, and it is also bold. It might not be called flirting.

BATTLE LINES ARE
EXTENDED IN FRANCE

German Must Defend Longer Front; Winter Will Not Halt Offensive.

LONDON, Oct. 13.—The objects of the British advance in France were outlined to the Associated Press today by Major General F. B. Maurice, chief director of military operations at the war office. The general emphasized as one of the principal purposes—already gained—that "the British push into the German lines has extended the fighting front by a length of 20,000 yards as that of stationary trench fighting were resumed the Germans would have that much increased frontage to defend."

Positions Shown in Detail.
General Maurice was surrounded by maps showing in minute detail the topography and positions of troops at the various stages of the advance since the beginning of July.

"As we get our own difficulties less and less," he remarked, "nothing is more fully and strongly defended and the British had reached the lower rolling lands. Whereas, the positions captured were intricate systems of trenches, he said, the British now confront a single line of trenches."

New Lines Being Made.
"The (the Germans) are hard at work making another line here," he went on, indicating a line drawn on the map behind the present battle front. "When we get there, they will be working on yet another line back here. Our work is to get ahead faster than their digging."

"We have never proceeded further, not faster, than we could with safety. Proof of that is that we have never been pushed back. We do not expect to maintain our recent rate of progress, naturally. From time to time we strike harder ground."

Ridge May Delay Advance.
By way of illustration he pointed out a ridge affording the Germans a good elevated defense position lying before the British army in one region and continued:

"Our rate of progress may slow down when we get further on. We are prepared for that."

The general discussed continuance of the British advance with confidence, as though it was an assured fact. He made it plain the British plan is to keep on hammering.

Winter Will Not Stop Them.
"Can you keep on during the winter?" the general was asked.

He replied in the affirmative with the qualifying statement:

"Of course the shorter the days the less shooting you can do. The worse the weather the harder is observation for artillery. It is unnecessary to refer to how important a factor is the artillery. In the Franco-Prussian war the battle of Bapaume was fought in the winter."

VILLA HUNDRED MILES
FROM ARMY IN MEXICO

Bandit Activity Ceases After Cusihuicatlán Fight, But Refugees Fear Outlaws.

FIELD HEADQUARTERS, AMERICAN PENITENT EXPEDITION, Mex., Oct. 13.—Investigation of recent rumors concerning the operations of the bandits under Francisco Villa and Julio Acosta, virtually has confirmed the belief at field headquarters that the reports were the result of imagination of frightened refugees.

Driven Out by Fear.
Although many Mexicans from the country south of El Valle have sought safety in that town, which is believed the fear that prompted them to flee as well as that which led residents along the railroad, to flee was unfounded. No Villa followers, it was learned today, are in Matamoros, which was reported to have been captured by Acosta, according to the best available information.

Hundred Miles Away.
Villa has not ventured north of Tamasopo, which is more than one hundred miles from the American lines. At Tamasopo, within ten miles of the American line of communication, also has been captured. Apparently there has been a lull in bandit activity since the fight at Cusihuicatlán.

**Washing Won't Rid
Head of Dandruff**
The only way out to get rid of dandruff is to dissolve it, then cut it off at the roots. To do this, get about four ounces of ordinary liquid arsan, apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and there is no more application will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
